## PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 15+ years of experience delivering enterprise-grade web applications across the full development lifecycle — from requirement gathering and architecture through coding, QA, and production deployment. Expert in C# / .NET, SQL Server, and ASP.NET (WebForms & MVC). Proven track record at high-growth companies including Tesla Motors and Faraday Future, building HR platforms, Workday integrations, and internal tools used company-wide. Strong collaborator who bridges the gap between business stakeholders and engineering teams.

## KEY ACHIEVEMENTS

- Tesla Motors — Received the Top 5% Performer award, a company-wide recognition given exclusively to the top 5% of employees based on their annual performance review results.
- Faraday Future — Led critical data cleanup initiatives across multiple enterprise systems (ADP, Concur, Active Directory), improving data integrity and downstream reporting accuracy.
- Universidad Autónoma del Estado de Hidalgo — Received the Garza de Plata 2008 award, granted to the student with the highest academic grades across the entire graduating class.
- Tesla Motors — Promoted three times in four years (Sr. Application Developer → Staff → Sr. Staff), reflecting consistent high performance and growing technical leadership.
- CodeProject — Published technical article on Ez-SQL, an open-source SQL query editor built in C#, demonstrating community contribution and software craftsmanship.

## PROFESSIONAL EXPERIENCE

### Associate Manager, Corporate Applications & Interfaces

Jun 2025 – Present

**Faraday Future** — Gardena, CA

Remote · Part-Time

- Re-engaged in the same senior role to continue internal application development and system integrations after a period of transition.
- Maintaining and extending existing enterprise applications, integrations, and data pipelines built during the previous tenure.

**Stack:** C#, ASP.NET WebForms & MVC, MS SQL Server, MySQL, ADO.NET, jQuery, KendoUI

## Associate Manager, Corporate Applications & Interfaces

May 2018 – Jan 2024

Faraday Future — Gardena, CA

- Owned the full development lifecycle for all internal enterprise applications: requirement gathering, architecture design, database modeling, coding, QA, and production deployment.
- Served as Jira platform administrator, managing projects, workflows, permissions, custom fields, and reporting dashboards for the entire organization.
- Led a cross-functional team to design and deliver the company-wide SharePoint intranet, centralizing communications, HR resources, and documentation.
- Integrated core business systems (ADP, Concur, Symmetry, QuickCharge) with internal platforms via custom .NET middleware and scheduled data pipelines.
- Led data cleanup efforts across multiple enterprise platforms, significantly improving system data integrity and enabling accurate downstream reporting.

Stack: C#, ASP.NET WebForms & MVC, MS SQL Server, MySQL, SQLite, ADO.NET, WinForms, jQuery, KendoUI, Bootstrap, AJAX

## Sr. Staff Application Developer

Jun 2014 – May 2018

Tesla Motors — Fremont, CA

- Architected and built the company-wide compensation management platform, driving annual performance review cycles with salary adjustment recommendations, market percentile calculations, and stock option grant workflows for thousands of employees.
- Designed and maintained integrations between Tesla internal systems and: Workday, ADP, Kronos, Taleo, Equity Edge, UltiPro, Fidelity, AON Hewitt, and Lenel.
- Delivered end-to-end application ownership: business requirements, architecture, coding, testing, deployment, and ongoing support across multiple mission-critical systems.
- Received the Top 5% Performer award and was promoted three times in four years: Sr. Application Developer → Staff Application Developer → Sr. Staff Application Developer.

Stack: C#, ASP.NET WebForms & MVC, Entity Framework, ADO.NET, MS SQL Server, WCF, jQuery, KendoUI, Bootstrap, Active Directory

## Middle Consultant — Full Stack Developer

Aug 2012 – Jun 2014

Definity First — Monterrey, Nuevo León, Mexico

- Full-stack .NET developer on two US-based enterprise client engagements: Dial 800 (analytics platform) and Tesla (internal tooling).
- Adapted and extended a legacy SpaceX-origin codebase into new Tesla internal application modules, ensuring backward compatibility while adding new functionality.
- Built C# backend services, T-SQL data layers, and jQuery/KendoUI frontend components across WebForms and MVC projects.

Stack: C#, ASP.NET WebForms & MVC, ADO.NET, Entity Framework, MS SQL Server, jQuery, KendoUI, AJAX

## TECHNICAL SKILLS

### Frontend

HTML5, CSS3, JavaScript, jQuery, Bootstrap, KendoUI, AJAX

### Backend

C#, ASP.NET WebForms, ASP.NET MVC, ADO.NET, Entity Framework, WCF, IIS, .NET Framework

### Databases

MS SQL Server, T-SQL, MySQL, SQLite, Oracle, MS Access

### Integrations

Workday, ADP, Concur, Kronos, Taleo, Equity Edge, Active Directory, SharePoint

### Tools & PM

Visual Studio 2010–2019, GitHub, TFS, Jira (Admin), Balsamiq, Visio, MS Project

### Languages

Spanish — Native | English — Fluent

**B.Sc. in Computational Systems**

*Graduated Jun 2008*

**Universidad Autónoma del Estado de Hidalgo** — Pachuca, Hidalgo, Mexico

- Garza de Plata 2008 — Awarded to the student with the highest academic grades across the entire graduating class.
